CERTIFIED
FARMED FUR

REAL FUR

This garment is made
with premium quality
fur from Saga Furs.

100% certified
100% traceable
100% sustainable

sagafurs®

What does 100% sustainability mean for you

It means that the fur in this garment
can be tracked through the
production chain - from retail to
farm. It's a guarantee of authenticity
and craftsmanship.

A certified farm provides assurances
that the farm of origin exceeds the
standards set for animal welfare,
environmental management and
operational practices. These are
the cornerstones of the Saga
Certification with Welfur inside
and they ensure superior levels of
farm management. This means that
all farms are inspected regularly by
3rd party auditors and authorities.

Real fur can last for decades and
can be reinvented through the
generations. Real fur doesn't create
plastic pollution but is a prime
example of sustainable fashion.
